## Letter from the Editors

---

Hi Sewers,

Homemade Christmas ornaments really add a little something extra to your Christmas tree. One of the best parts of trimming the tree is rediscovering all of your old ornaments year after year and remembering where you got them or when you made them. Exchanging ornaments with friends and family is another wonderful Christmas tradition, and making the ornaments yourself makes it that much more special. Let these sewing patterns inspire you as you're stitching up homemade Christmas ornaments this year, for your own tree or a friend's.

Merry Christmas!

## Yo-Yo Fabric Ornaments

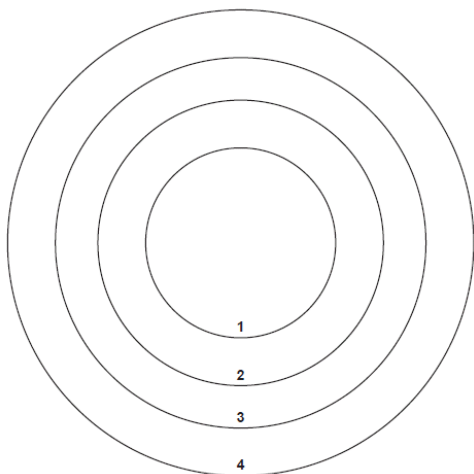

By: Coats & Clark

Use Christmas fabric scraps to create beautiful yo-yo bells for tree ornaments, gift toppers or wreath embellishments. These unique stuffed yo-yo are easy to create and very addictive!

### Materials:

- Dual Duty® Button & Carpet thread Art 250 or S950)
- Christmas Print Fabrics \*: scraps or fat quarters
- Polyester fiberfill
- Jingle bells
- Template

\* We used Hallmark Christmas from FreeSpirit Fabrics.

### Instructions:

1. For each ornament, cut circles 1 through 4 from the assorted Christmas fabrics (see pattern). Sew a hand running stitch around the edges of each circle for gathering. Place a small amount of fiberfill in center of circle, then pull thread to gather edges. Secure thread.
2. Stack the yo-yos, having the largest at the bottom and the smallest at the top. Starting at the top of the yo-yo tree, push threaded needle down through the center of all four yo-yos. Slip the bell over the needle and hold it at the bottom of the largest yo-yo. Bring the needle back up through the center of the tree and take a stitch to secure. Do not cut thread.
3. Take another stitch leaving a 4" loop for hanging the ornament; take a stitch to secure. Do not cut thread.
4. Cut a 15 inch piece of ribbon. Place center of ribbon over last stitch and take a stitch through ribbon to hold in place. Secure thread and cut. Tie a bow in the ribbon.

## Heart Felt Ornaments Tutorial

By: Cheryl Patterson for FeltSewGood

These cute heart shaped ornaments make wonderful gifts or gift wrap accents. Follow this tutorial for easy Christmas crafts or unique Valentine crafts that use recycled wool sweaters.

### Materials:

- Felted wool sweater or wool felt
- Embroidery thread and needle
- Cotton or wool thread
- Assorted beads and buttons
- Stuffing
- Scissors, pins and tracing paper

### Instructions:

1. Cut out hearts. To make a heart shaped paper pattern, fold a piece of paper and starting at the fold, cut out one side of the heart so that the fold is the center of the heart. This way when you open the paper you have a perfectly proportioned heart. Try several shapes and sizes until you have the desired heart shape. Then pin the paper to the wool and cut out two hearts for each

ornament you want to make. I also cut out some smaller hearts to make contrasting centers for some of my ornaments.

2. Embroider and embellish the hearts. I used a contrasting color embroidery thread to sew simple stitches in star and swirl patterns on some of my hearts. Then I stitched on seed beads as embellishments. On other hearts I used a blanket stitch, or buttonhole stitch, to appliqué smaller hearts to the center, then added a button for embellishment. You will be using two pieces of wool for each heart ornament. You can decorate one or both sides of the ornament.

3. Sew the hearts together. With wrong sides together, use a blanket stitch to sew around the outside edge of each heart. When about a one inch opening

remains, fill the heart with stuffing, then finish stitching to close the opening.

4. Hang the heart. Thread a short length of wool or cotton thread through the top edge of each heart to hang on your tree or tie to a package.
